

YOUR GUIDE TO MANAGING ELECTORAL BALLOTS ON POWER ADMIN

This guide explores the Participation module in Power Admin, tracking electoral ballot participation & and generating a Vote by Unit Report, offering insights into the units that have cast an electronic vote and empowers you to efficiently manage your electoral ballots, ensuring a smooth and transparent voting process for your association.

1

Access the "**Participation & Approvals Module**" in your Power Admin account. You can find this module by selecting the "hand inserting a paper ballot" icon from the left-side menu options and choosing "**VOTING.**"

Locate the electoral ballot currently published. Here, you'll find a **quick overview of essential metrics** concerning the ballot's status, including the number of units that have cast electronic votes and the participation rate.

To delve deeper into ballot details, click the **three-dot icon in the top right corner** of the ballot.

2

3

Select "**VIEW BALLOT**" to access the **detailed information** related to your electoral ballot.

On the following screen, you'll encounter **comprehensive information about your ballot** and relevant voting metrics:

Total Units:

The total number of units registered in the system, regardless of any owners registered to them.

Units Voted:

The total number of units that have cast electronic votes on this ballot.

Participation:

The percentage of owners who have voted electronically.

Important Note: Avoid clicking the **"CLOSE BALLOT"** button prematurely, as it cannot be undone and may compromise the integrity of the electoral election. **Contact ONR's customer support team** for any inquiries or concerns regarding the ballot closure process.

TALLY & RESULTSTAB:

On this tab is **the following message**, notifying you that ballot results will only be displayed **after the election is closed**.

Also, the **Participation Chart** illustrates the daily progress of participation.

Vote Breakdown Tab: This tab becomes accessible after the ballot is closed and allows you to extract a sensitive **Vote Breakdown Report for the ballot**. Please exercise caution when handling this report due to its highly sensitive information.

Vote by Unit Tab: This tab **displays all units and their respective registered owner in the system**. It indicates whether they have cast electronic votes on this ballot, and if the unit is opted-in to vote.

Unit #	Assigned User	Voted	Vote Type	Opted In
Test 1	Joey Mizrahi <small>Owner</small>	No	N/A	No
Test 4	ONR Support - Carlos Rivas <small>Owner</small>	No	N/A	No

Export Report Button: Use this button to **download a report listing** the units that have cast electronic votes up to the moment of selection. **Choose your preferred file format** (e.g., CSV) and **check your email** for the download link.

Physical Votes Tab: Currently, the ONR platform does not support the inclusion of physical votes in the electronic tally.

Reminders Tab: You can use the **"NEW REMINDER"** button to send custom notifications to opted-in owners **who haven't yet cast their votes**.

NOTE: If you've purchased the Vote Plus service package, the **ONR Support team** will manage your voting reminders.

Notification Management Tab: This tab allows you to disable reminders for owners who've already submitted physical ballots to prevent unnecessary notifications. Simply locate the unit and toggle the "Vote Notifications" button to "OFF."
